**Aiming to evolve molding technology
in the field of fiber processing**

Company Profile

Started	April 1, 1947
Established Corporation	November 27, 1950
Capital	95,000,000yen
President	Eisuke Fukui
Businesses	Manufacturing and sale of netting products designed to benefit various industries including fishery, construction, civil engineering, agriculture, automobiles and sports, as well as designing, installation and renting of ancillary facilities and equipments Manufacturing and sale of fiber products for automobile interiors Manufacturing and sale of fiber reinforced plastic products
Address	Head Office 5-1 Iwanishi, Nakahara-cho, Toyohashi, Japan 441-3196 TEL 81-532-41-1211 FAX 81-532-41-5078 Malaysia SDN.BHD 2499 Jalan Perusahaan Baru Prail Industrial Estate 13,600 Prai Penang, Malaysea TEL : 604-3999-361 FAX : 604-3999-364
Employees	70 (50 male employees and 20 female employees)
Main facilities	Site area : 50,333m ² Construction area: 13,113m ² Single Raschel machine Warp knitting machine for multi-axis direction Double Raschel machine Melt injection adhesion machine Tuft carpet machine Swing pressing machine Warp machine Curing mat fabrication machine Continuous heating process Manufacturing device for machine for fishery net Pipe-shaped glass prepreg material Carpet process machine VRTM sample making machine Continuous protrusion Backing process machine molding machine Warp knitting machine for weft thread insertion
Obtained certification	ISO14001 (Environmental management) March, 2001 ISO9001 (Quality management) March, 2003 Newly-grown organization (by the Committee for Fostering Newly Growing Enterprises) May, 2003 Aichi brand organization March, 2004
