

Pit Grip (Anti-skid floormat by all fabric materials)

NEW TECHNOLOGY: ultra light weight, anti-skid, recyclable

Features

- ① Ultra lightweight (low fuel consumption / Easy to use)
- ② Anti-skid (improved safety)
- ③ Sound absorbent (comfortable)
- ④ No VOC (no harmful materials)
- ⑤ Recyclable (environmentally friendly)

Application

- ① Floormat
- ② Mat for nursing care
- ③ Dascon mat

How to test

【Retention capability test / forward and backward】

<How to measure>

By performance testing method of automobile manufacturing company

【Retension capability test / rotative direction】

<How to measure>

By performance testing method of automobile manufacturing company

- Aeration property and greater sound absorbency can be achieved when compared to conventional rubber products due to the use of non-woven fabric.
- Being slippery only with non-woven fabric, we made a unified non-woven fabric with our **W Raschel** woven net, which ensures high retention effect.
- Use of the hot-melt adhesive, which is free from VOC, is environmentally friendly and leads to a lightweight product.

Description		Specification
Carpet layer	Pile thread	Polypropylene / Polyester
	Primary Ground fabric	Polyester
	Latex	SBR

Description		Specification
Adhesive	Hotmelt	Olefinic

Description		Specification
Pit Grip	Non-woven fabric	Polyester
	W Raschel	Polyester
	Woven Net	Polyester

Test data

- Competitor's rubber products
- Competitor's non-woven fabric products
- Pit Grip
